

## **From the Principal**

April 21, 2008

### **School Site Council Survey**

The Springer School Site Council continues to monitor and plan for the future instructional program offerings at Springer Elementary School. The council membership of teachers, parents, and administration works together to analyze instructional and program success. The council makes programmatic recommendations to the administration and the school Parent Teachers Association.

The school population will be adjusting for the upcoming 2008 -09 school year. Due to the population adjustment, the council has decided to determine a baseline of information about the programs, instructional practices, and administrative leadership. Change has great upside potential as long as the base line for the initiation of change is clearly understood.

The council has published a school survey for all parents of Springer Elementary School. This survey can be successfully completed online or the survey can be completed using the paper form.

Please complete the survey online by clicking the survey link on [www.springerschool.net](http://www.springerschool.net) or use the paper form and return by Friday, May 19.

### **Junior Olympics**

The Los Altos School District Junior Olympics are set for this Saturday, April 26th at Mountain View High School. Springer Elementary School has a strong tradition of participation and spirit throughout the day.

This is a big event for our fourth, fifth, and sixth grade students. The goal for each child is to achieve their personal best in whatever events they have chosen to participate in . Then, history has shown, these Springer students stay to support classmates throughout the day with cheers and displays of sportsmanship.

Plan to rise early on Saturday, select your favorite green shirt and be a part of history. Get behind our student athletes, cheer them on, and enjoy the day with your child and their friends.

This is truly a memorable event. We are expecting 100% PARTICIPATION. We want each upper grade student marching proudly in the opening ceremony, participating strongly in their events, and cheering in the stands for our relay teams at the end of the day.

**BE THERE !!!**
