We Should be Proud...

Springer Auction 2008

The other day, I received a note from one of our parents. I think this message summarizes the feelings of the entire Springer Community.

"I was thrilled to curl up with the auction book that came home on Friday. What an amazing job you have done reaching out to so many members of our Springer and surrounding communities for support of our school. The donations look absolutely fantastic and offer something for everyone with such a wide variety of interests. We are so lucky that the two of you chose to share so much of yourselves and your time to create this wonderful event."

I am sure we are all looking forward to a wonderful evening this coming Saturday. Thank you to Caroline Price and Vicky Brey and the supporting committee members for the many efforts made to make this Springer Auction a memorable event.

Science Faire 2008

What a fine night! Directed by Karen Mueller and a cast of many supporters, the Springer Science Faire 2008 offered all visitors many eye opening scientific investigations. Thank you to all of our parents and friends who provided an opportunity for our students to investigate using a formal process.
