

LOS ALTOS SCHOOL DISTRICT
INSURANCE STATEMENT FOR TRANSPORTATION OF STUDENTS IN
PRIVATELY-OWNED VEHICLES

Persons who provide transportation for students should be aware that though there is liability insurance provided by the school district to cover all school-sponsored activities, it is the liability insurance of the registered owner of the vehicle that must provide the primary and basic coverage in case of accident. The district carries extensive liability insurance which may apply, depending on the circumstances.

If you agree to provide transportation, please sign below and return to the school.

I have read the above statement concerning insurance. I am twenty-one (21) years of age or older, possess a valid driver's license, and my automobile liability insurance is in force for the date or dates during which I am transporting students for a school-sponsored event. The minimum amount of liability insurance I am required to carry is \$300,000.
