

What is a "FunVisor"???

A person who wants to help students develop a deeper connection to the school through play at lunch recess and who takes seriously the role of adult role model.

I am a successful "FunVisor" because I:

- know student names and use them.
- have fun with students.
- play games with students.
- read children's books under trees.
- blow bubbles like the Pied Piper.
- organize relay races.
- start a hula hoop contest.
- twirl large jump ropes for students.
- play catch.
- organize board games and small craft activity.
- have fun, too!
- When students want to tell you something, you take the time to really listen.
