

“How Parents Can Help Their Children Learn and Love Math”

Please join Professor Jo Boaler from Stanford University in a discussion on how students learn math and how parents can support a growth mindset for continued success in math.

Nationally renowned Stanford Mathematics Education Professor Jo Boaler will discuss how parents can help their children learn and love math. Dr. Boaler is author of the successful Stanford MOOC “How to Learn Math” and seven books, including “*What’s Math Got To Do with It?*” and “*Connecting Mathematical Ideas – a collection of middle school cases of teaching*”, with Cathy Humphreys (Heinemann, 2005). Her former roles include being the Marie Curie Professor of Mathematics Education in England and a middle and high school teacher of mathematics in London and California.
