

Living Classroom Docent Training Sessions

Do you like nature, gardening, hands-on education in science, history, and math? Love to help in the classroom or in the school gardens? Then come to our **Docent Training Sessions** offered by the Living Classroom Program to become a garden docent. The Living Classroom is LASD's garden-based education program that offered 630 lessons last year, K-8th grades at all LASD schools. We are always looking to add new volunteers who love to have fun with students and acquaint them with the wonders of nature.

The Living Classroom gives these lessons from January through the end of March – fyi! We hope to see you there!

No experience necessary, just an interest in sharing the joy of learning and availability during the day.
